

YAEGER INNOVATIVE PRODUCTS CORPORATION

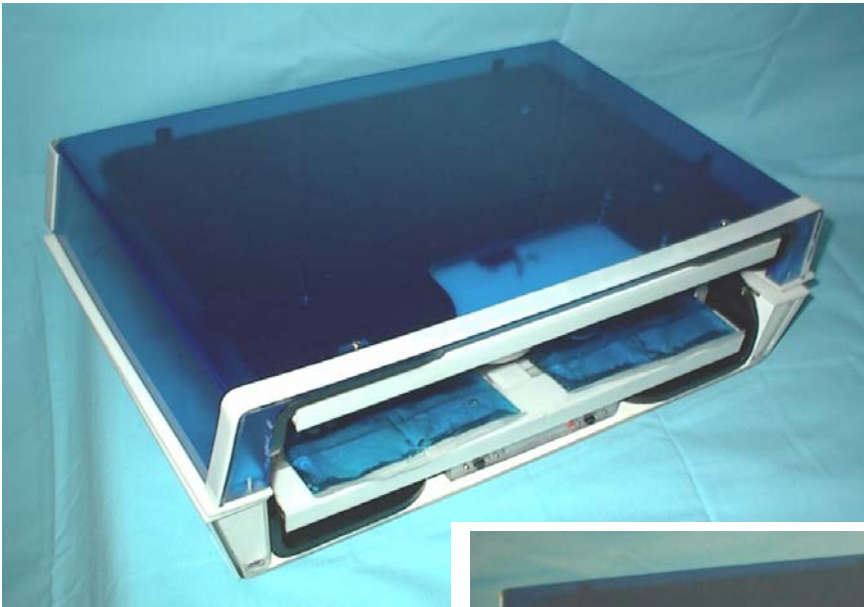

Introduces The

# *Electrassage*<sup>™</sup>

*Hand and Wrist Therapy Unit*

Patent Pending

***Provides Relief For Hand And Wrist Fatigue***

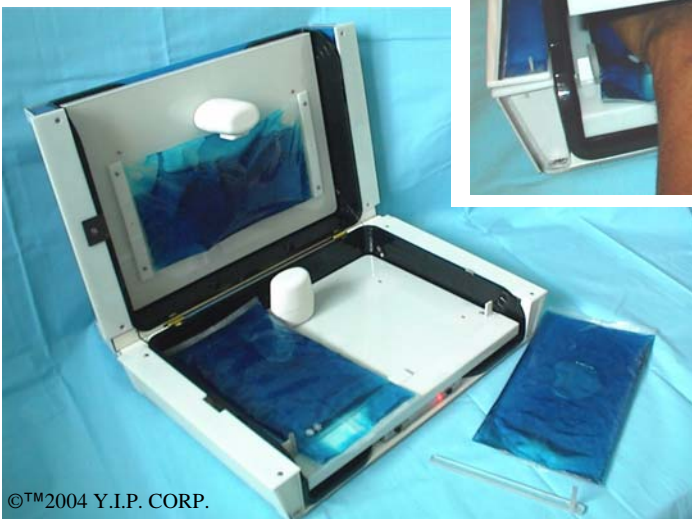

*Electrassage* is the complete therapeutic device for overworked hands and wrists. Simply place one or both hands into the *Electrassage* to begin a treatment session that includes:

- ***Massage Therapy***
- ***Heat / Cold Therapy***
- ***Electrical Stimulation Therapy.***

*Electrassage* can provide these treatments –  
separately or in any combination –  
to both sides of the hands and wrists.

Other features include:

- ***Palms-only mode (lid open)***
- ***Removable form-fitting gel packs***
- ***Adjustable firmness under hands / wrists.***

In the home, office or clinical setting, *Electrassage* is the ultimate solution for repetitive-use fatigue and injury!

YAEGER INNOVATIVE PRODUCTS CORPORATION

Introduces The

# *TrackClip*<sup>TM</sup>

*Hair Weave Attachment Clip*

Patent Pending

**Secures Hair Weave Quickly and Invisibly**

Anyone who has enjoyed the versatility of hair weave has endured the inconvenient methods of attaching them to the head.

Now *TrackClip* makes hair weave as easy to attach and remove as a barrette!

## *TrackClip*

eliminates:

- Sewing
- Pinning
- Gluing

- and does what no conventional wig clip can do.

## *TrackClip*

is simple and effective:

Weave track is trapped by upper teeth --

Snap-action closure securely grips scalp hairs in lower teeth.

*TrackClip* is a hairstyling innovation for wearers and stylists. Finally there's a way to add, reposition and remove hair weave easily and painlessly!
